Continuation Sheet (PTOL-37)

Application No. 10/009,052

Continuation of Attachment(s) 9. Other: Copy of Formal drawings faxed on 9/16/05.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Arnold Krumholz on 9/16/05.

The application has been amended as follows:

The title was amended to read as follows:

Method and System for Conveying Shredded Pulp to an Ozone Reactor

Claim 23 is currently amended to read as follows:

23. (Currently Presented) A system for treatment of pulp, comprising:

a dewatering device for dewatering said pulp to a fiber concentration of at least 20%,

a pulp shredding device for shredding said dewatered pulp,

said pulp shredding device including a closed pulp shredding vessel, an outlet pipe from said pulp shredding vessel, and a transport means adapted to continuously transport said shredded pulp without compressing the pulp out of said pulp shredding vessel through said outlet pipe, so that said outlet pipe is kept filled with passing pulp,

Application/Control Number: 10/009,052

Art Unit: 1731

a reaction vessel for bleaching said shredded pulp through reaction with ozone gas,

a conduit gas sealed from the surroundings and connecting said outlet pipe of said pulp shredding vessel gas-tightly to said reaction vessel, so that the interior of said outlet pipe directly communicates with the interior of said reaction vessel through the interior of said conduit,

and a pressure regulation device for regulating the gas pressure in said pulp shredding vessel and the gas pressure in said reaction vessel so that ozone gas is prevented from leaking upstream through said outlet pipe,

said pressure regulation device comprising fan means for evacuation of gas from at least one of said pulp shredding vessel and said reaction vessel, [[a]] pressure sensor <u>means</u> for sensing the gas pressure in said as least one of said pulp shredding vessel and said reaction vessel, and a regulation unit for regulating the capacity of said fan <u>means</u> in response to said pressure sensor <u>means</u>.

DRAWINGS

The following changes to the drawings have been approved by the examiner and agreed upon by applicant: The formal drawings of figures 1-3 received via fax on 9/16/05. These drawings are acceptable.

REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the primary reason for allowance of claim 23 is that the cited prior art fails to disclose or reasonably

suggest a system for treating pulp comprising the claimed pulp shredding device, reaction vessel in combination with the claimed pressure regulation device wherein the regulation device pressure regulation device comprising fan means for evacuation of gas from said pulp shredding vessel and said reaction vessel, pressure sensor means for sensing the gas pressure in said pulp shredding vessel and said reaction vessel, and a regulation unit for regulating the capacity of said fan means in response to said pressure sensor means.

It is also noted that the reason for allowance of claim 22 has been given in the office action mailed on 3/4/03.

CONCLUSION

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Carlos Lopez whose telephone number is 571.272.1193. The examiner can normally be reached on Mon.-Fri. 8am - 5pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Steven Griffin can be reached on 571.272.1189. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
